

WHAT IS WPS/CLM?

The Washington Psychiatric Society is the local District Branch of the American Psychiatric Association.

The Career, Leadership, and Mentorship Program is an innovative program for Resident Fellow Members and Early Career Psychiatrist members of WPS. CLM membership has several benefits for members including local, national, and international opportunities for career development and leadership.

Tonight's competition was inspired by APA MindGames:

The APA Mind Games is the APA's national residency team competition. It's a fun way for residents to test their knowledge of patient care, pharmacology, and the history of psychiatry. All residency programs are invited to participate each spring, and the top three highest-scoring teams compete in the national live competition at the APA Annual Meeting.

Please join us after the competition...
